DEAR DR. HOSHEL

Re

Patient Name: **BONNIEVIEWS CHINNAMON ERB**  
Reg # (CKC, AKC, other): SQ106846      Owner WAGGING HEART KENNELS  
OVC Case Number: N/A

I have reviewed the series of radiographs of the above-mentioned dog which you submitted which were made on September 27th, 2007 and were submitted for preliminary radiographic evaluation (approximately 1 year old) regarding hip dysplasia. I consider both coxofemoral joints to be within normal limits for a dog of this breed and age.

Flexed lateral projections of both elbows made on the same date are also considered to be within normal limits for a dog of this breed and age.

Thank you for referring this case to the Radiology Service at the Ontario Veterinary College. If we can be of any further assistance with this case, please do not hesitate to contact us at 519-767-5022.

Yours Sincerely,

Robert Cruz, DVM, MS (Radiological Health Sciences)  
Radiologist, Assistant Professor  
Ontario Veterinary College
